

## Publications of Sterling K. Berberian

1. “Non-abelian groups of order  $pq$ ”, *American Mathematical Monthly* **60** (1953), 37–40. Reprinted in *Selected papers on algebra* [The Raymond Brink Selected Mathematical Papers, Vol. 3, pp. 6–8, Mathematical Association of America, 1977] {submitted 2-29-52}
2. “The regular ring of a finite AW\*-algebra”, *Annals of Mathematics* (2) **65** (1957), 224–240. [MR **18** (1957), 914; Zbl **85** (1960), 99] {rcvd. 11-2-55}
3. “On the projection geometry of a finite AW\*-algebra”, *Transactions of the American Mathematical Society* **83** (1956), 493–509. [MR **19** (1958), 47; Zbl **74** (1960), 99] {rcvd. 2-1-56}
4. “ $N \times N$  matrices over an AW\*-algebra”, *American Journal of Mathematics*, **80** (1958), 37–44. [MR **20** (1959), 795] {rcvd. 7-10-57}
5. “Note on a theorem of Fuglede and Putnam”, *Proceedings of the American Mathematical Society* **10** (1959), 175–182. [MR **21** (1960), 1222; Zbl **92** (1962), 320] {rcvd. 7-28-58}
6. “Approximate proper vectors”, *Proceedings of the American Mathematical Society* **13** (1962), 111–114. [MR **24** (1962), 660, No. A3516] {rcvd. 12-21-60}
7. “A note on operators unitarily equivalent to their adjoints”, *Journal of the London Mathematical Society* **37** (1962), 403–404. [MR **25** #5391; Zbl **111** (1965), 309] {rcvd. 5-1-61}
8. “The product of two measures”, *American Mathematical Monthly* **69** (1962), 961–968. [MR **26** #1413; Zbl **108** (1964), 50] {subm. 12-19-61}
9. “A note on hyponormal operators”, *Pacific Journal of Mathematics* **12** (1962), 1171–1175. [MR **26** #6771] {rcvd. 2-27-62}
10. ——— and J.F. Jakobsen “A note on Borel sets”, *American Mathematical Monthly* **70** (1963), 55. [MR **26** #2567; Zbl **113** (1965), 376] {subm. 4-2-62}
11. “The spectral mapping theorem for a Hermitian operator”, *American Mathematical Monthly* **70** (1963), 1049–1051. [MR **35** #2161] {subm. 4-8-63}
12. “The numerical range of a normal operator”, *Duke Mathematical Journal* **31** (1964), 479–483. [MR **29** #1539] {rcvd. 6-11-63}
13. “On the extension of Borel measures”, *Proceedings of the American Mathematical Society* **16** (1965), 415–418. [MR **31** #298] {rcvd. 12-18-63}
14. “Counterexamples in Haar measure”, *American Mathematical Monthly* **73** (1966), No. 4, Part II, 135–140. (Slaught Memorial Papers #11, *Papers in analysis*) [MR **33** #4180] {subm. 2-22-65}

15. “Naimark’s moment theorem”, *Michigan Mathematical Journal* **13** (1966), 171–184 [MR **33** #3113] {rcvd. 5-22-65}
16. “Sesquiregular measures”, *American Mathematical Monthly* **74** (1967), 986–990. [MR **36** #2766] {subm. 10-15-65}
17. Baumgärtel, H. and —, “Bemerkungen zu einem Satz von J.v. Neumann”, *Mathematische Nachrichten* **32** (1966), 313–316. [MR **35** #5965; Zbl **161** (1969), 116] {rcvd. 11-11-65}
18. “Compact convex sets in inner product spaces”, *American Mathematical Monthly* **74** (1967), 702–705. [MR **35** #3421] {subm. 12-6-65}
19. “A note on operators whose spectrum is a spectral set”, *Acta Scientiarum Mathematicarum (Szeged)* **27** (1966), 201–203. [MR **34** #3309] {rcvd. 12-10-65}
20. — and Orland, G.H., “On the closure of the numerical range of an operator”, *Proceedings of the American Mathematical Society* **18** (1967), 499–503. [MR **35** #3459] {rcvd. 6-7-66}
21. “Note on some spectral inequalities of C.R. Putnam”, *Pacific Journal of Mathematics* **30** (1969), 573–575. [MR **40** #1800] {rcvd. 11-26-68}
22. “Trace and the convex hull of the spectrum in a von Neumann algebra of finite class”, *Proceedings of the American Mathematical Society* **23** (1969), 211–212. [MR **40** #749] {rcvd. 12-13-68}
23. “Some conditions on an operator implying normality”, *Mathematische Annalen* **184** (1970), 188–192. [MR **41** #862] {rcvd. 2-23-69}
24. “An extension of Weyl’s theorem to a class of not necessarily normal operators”, *Michigan Mathematical Journal* **16** (1969), 273–279. [MR **40** #3335] {rcvd. 4-17-69}
25. “The Weyl spectrum of an operator”, *Indiana University Mathematics Journal* **20** (1970), 529–544. [MR **43** # 5344] {rcvd. 1-5-70}
26. “Some conditions on an operator implying normality. II”, *Proceedings of the American Mathematical Society* **26** (1970), 277–281. [MR **42** #884] {rcvd. 1-12-70}
27. “A note on the algebra of measurable operators of an AW\*-algebra”, *Tôhoku Mathematical Journal* **22** (1970), 613–618. [MR **43** #3812] {rcvd. 1-22-70}
28. “Conditions on an operator implying  $\operatorname{Re} \sigma(T) = \sigma(\operatorname{Re} T)$ ”, *Transactions of the American Mathematical Society* **154** (1971), 267–272. [MR **42** #5078] {rcvd. 3-18-70}
29. “Some conditions on an operator implying normality. III”, *Proceedings of the Japan Academy* **46** (1970), 630–632. [MR **43** #6759] {rcvd. 9-12-70}

30. “The regular ring of a finite Baer  $*$ -ring”, *Journal of Algebra* **23** (1972), 35–65. [MR **46** #7294] {rcvd. 12-27-70}
31. “Equivalence of projections”, *Proceedings of the American Mathematical Society* **33** (1972), 485–490. [MR **45** #4158] {rcvd. 7-8-71}
32. “On the convolution of a measure and a function”, *Proceedings of the American Mathematical Society* **53** (1975), 399–403. [MR **52** #5928] {rcvd. 10-21-74}
- 32 $\frac{1}{2}$ . Book review of: “Funktionalanalysis”, by Harro Heuser; “Geometric functional analysis and its applications”, by Richard B. Holmes; “Functional analysis” and “Fourier analysis, self-adjointness”, by Michael Reed and Barry Simon (Vols. I and II of *Methods of modern mathematical physics*); *Bulletin of the American Mathematical Society* **82** (1976), 865–868.
33. “Produit de convolution des mesures opératorielles”, *Acta Scientiarum Mathematicarum (Szeged)* **40** (1978), 3–8 [MR **80d**:28021] {rcvd. 1-6-77}
34. “The character space of the algebra of regulated functions”, *Pacific Journal of Mathematics* **74** (1978), 15–36. [MR **81b**:46067] {rcvd. 1-21-77}
35. “Extensions of a theorem of Fuglede and Putnam”, *Proceedings of the American Mathematical Society* **71** (1978), 113–114. [MR **58** #7176] {rcvd. 6-2-77}
36. “Normal derivations in operator algebras”, *Tôhoku Mathematical Journal* (2) **30** (1978), 613–621. [MR **81c**:46054] {rcvd. 6-24-77}
37. “A note on the disintegration of measures”, *Proceedings of the American Mathematical Society* **71** (1978), 115–116. [MR **58** #6151] {rcvd. 7-15-77}
38. “Regulated functions: Bourbaki’s alternative to the Riemann integral”, *American Mathematical Monthly* **86** (1979), 208–211. {subm. 4-19-78}
- 38 $\frac{1}{2}$ . Book review of: “Topological uniform structures”, by Warren Page; *Bulletin of the American Mathematical Society (NS)* **1** (1979), 974–978.
39. “Von Neumann algebras admitting no unbounded measurable operators”, *Mathematica Japonica* **25** (1980), 61–64. [MR **81e**:46046] {rcvd. 8-27-79}
40. “Trace and the regular ring of a finite AW $*$ -algebra”, *Proceedings of the American Mathematical Society* **80** (1980), 584–586. [MR **81j**:46091] {rcvd. 11-14-79}
- 40 $\frac{1}{2}$ . “Bourbaki, the omnivorous hedgehog: a historical note?”, *The Mathematical Intelligencer* **2** (1980), 104–105. (no reprints)

41. “The maximal ring of quotients of a finite von Neumann algebra”, *Rocky Mountain Journal of Mathematics* **12** (1982), 149–164. [MR **83i**:16005] {rcvd. 5-17-80}
42. “Factor-correspondences in regular rings”, *Canadian Journal of Mathematics* **34** (1982), 23–30. [MR **83i**:16013] {rcvd. 7-29-80}
43. “The center of a corner of a ring”, *Journal of Algebra* **71** (1981), 515–523. [MR **83a**:16015; Zbl **466**.16016] {rcvd. 10-5-80}
44. “The algebra of thin operators is directly finite”, *Publicacions Universitat Autònoma de Barcelona, Secció de Matemàtiques* **26** (1982), 5–7. [MR **85m**:47045] {rcvd. 7-15-81}
45. “Normality and embedding of AW\*-algebras”, *Bulletin of the London Mathematical Society* **15** (1983), 255–259. [MR **84g**:46078] {rcvd. 1-20-82}
46. “Expectations in semifinite algebras”, *Pacific Journal of Mathematics* **106** (1983), 33–43. [MR **84g**:46075] {rcvd. 3-5-82}
47. “Isomorphisms of large ideals of AW\*-algebras”, *Mathematische Zeitschrift* **182** (1983), 81–86. [MR **84b**:46072] {rcvd. 5-3-82}
48. “Equivalence and perspectivity in Baer rings”, *Journal of Algebra* **87** (1984), 380–388. [MR **85e**:16022] {rcvd. 5-20-82}
49. “Relative C\*-sums”, *Proceedings of the American Mathematical Society* **89** (1983), 117–118. [MR **84g**:46087] {rcvd. 11-29-82}
- 49 $\frac{1}{2}$ . “Borel spaces” [*Functional analysis and its applications* (Proc. International Autumn School, Nice, 25 Aug–20 Sep, 1986), pp. 134–197; ICPAM Lecture Notes, Edited by H. Hogbe-Nlend; World Scientific Publ. Co., Singapore, 1988]. MR **90a**:54101] “2nd. edition” (2002): Re-keyboarded in T<sub>E</sub>X by the author, posted (as borelspa.pdf) at the University of Texas’s web site for mathematical publications (www.ma.utexas.edu/mp\_arc), as item 02-156 in the folder for 2002.
50. Armendariz, E. P. and —, “Baer \*-rings satisfying  $J^2 = J$  for all ideals”, *Communications in Algebra* **17** (1989), 1739–1758. [MR **90g**:16014] {rcvd. Feb. 1988}
51. “Number-theoretic functions via convolution rings”, *Mathematics Magazine* **65** (1992), 75–90. [MR **93e**:11009] {subm. 6-12-88}
- 51 $\frac{1}{2}$ . “Gauss’s law of quadratic reciprocity”, *Toth-Maatian Review* **9** (1990), 4553–4564. {Reproduction of class notes.}
52. “Lebesgue’s ‘Fundamental theorem of calculus’ revisited” [*Paul Halmos: Celebrating 50 years of mathematics*, pp. 265–285, Springer-Verlag, New York, 1991]. [MR **93a**:26005] {subm. 6-10-90}

53. “Why there is no ‘Fundamental theorem of calculus’ for the Riemann integral”, *Expositiones Mathematicae* **11** (1993), 271–279. {rcvd. 2-27-91}

## BOOKS

- [1] *Introduction to Hilbert space*, Oxford University Press, New York, 1961 [MR **25** #1424]; reprinted Chelsea, New York, 1976; reprinted by the American Mathematical Society, Providence, R. I., 1999; Spanish translation by Joachin Sánchez Guillén, edited and revised by A. Plans Sanz de Bremond, Editorial Teide, Barcelona, Spain, 1970. [MR **51** #8799]
- [2] *Measure and integration*, Macmillan, New York, 1965 reprinted Chelsea, Bronx, NY, 1970. [MR **32** #1315]
- [3] *Notes on spectral theory*, Van Nostrand Mathematical Studies No. 5, Van Nostrand, Princeton, 1966 [MR **32** #8170]. Corrected “2nd edn.” (2009), re-keyboarded by the author in T<sub>E</sub>X, with updated references; posted (as nst.pdf) at the University of Texas’s web site for mathematical publications (www.ma.utexas.edu/mp\_arc), as item 09-32 in the folder for 2009.
- [4] *Baer \*-rings*, Grundlehren der mathematische Wissenschaften, Band 195, Springer-Verlag, New York/Berlin/Heidelberg, 1972. [MR **55** #2983]
- [5] *Lectures in functional analysis and operator theory*, Graduate Texts in Mathematics, No. 15, Springer-Verlag, New York, 1974. [MR **54** #5775]
- [6] Translation from the French: *General topology*, by Jacques Dixmier (translation of *Topologie générale*), Undergraduate Texts in Mathematics, Springer-Verlag, New York, 1982. [MR **85f**:54001]
- [7] *Linear algebra*, Oxford University Press, Oxford/New York/Tokyo, 1992. [Zbl **0755**.15001] (MR deemed it “outside scope”)
- [8] *A first course in real analysis*, Undergraduate Texts in Mathematics, Springer-Verlag, New York, 1994. [MR **95d**:26001]
- [9] Translated from the French: *Géométrie noncommutative*, by Alain Connes (InterEditions, Paris, 1990); incorporated into *Noncommutative geometry*, Academic Press, San Diego, 1994. [MR **95j**:46063]
- [10] *Fundamentals of real analysis*, Universitext, Springer-Verlag, New York, 1998. [MR **99i**:28001]
- [11] Translated from the French: *Integration*, Vol. I (Chs. 1–6), by N. Bourbaki (translation of *Intégration*, Chs. 1–6, Hermann, Paris, 1959–1967), Springer-Verlag, Berlin/Heidelberg/etc, 2004. [MR **2004i**:28001]

- [12] Translated from the French: *Integration*, Vol. II (Chs. 7–9), by N. Bourbaki (translation of *Intégration*, Chs. 7–9, Hermann, Paris, 1963–1969), Springer-Verlag, Berlin/Heidelberg/etc, 2004. [MR **2005f**:28001]
- [13] *Baer rings and Baer\*-rings*; T<sub>E</sub>X'ed version of a 1982 addendum/update of [4], posted (as *baerings.pdf*) at the University of Texas's web site ([www.ma.utexas.edu/mp\\_arc](http://www.ma.utexas.edu/mp_arc)), as item 03-179 in the folder for 2003. It is the 1992 item cited on p. 86 of Irving Kaplansky's *Selected papers and other writings* [Springer-Verlag, New York, 1995], in which the handwritten diagrams are replaced by diagrams in T<sub>E</sub>X.
- [14] *Notes on N. Bourbaki's "Integration"* (item [11] above), a 586-page document posted (as *intnotes.pdf*) at the University of Texas's web site ([www.ma.utexas.edu/mp\\_arc](http://www.ma.utexas.edu/mp_arc)), as item 08-193 in the folder for 2008.
